

# Meet **libby.**

The one-tap reading app from your library

**OverDrive**

# The path to reading happiness

- One tap to find a library!
- One tap to discover something new!
- One tap to read or listen to the book you borrow!
- One tap to a shelf that has everything you want to read!

# Perfect for new users

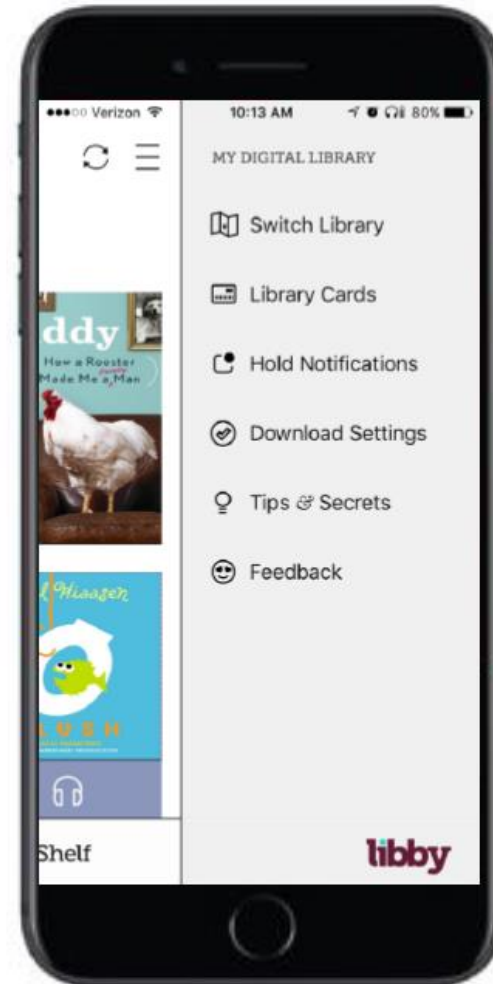

- Easier than ever to get started.
- You just need a library card.
  - No Adobe ID or registration needed.
- Integrated with **OverDrive Read and OverDrive Listen**.
  - Highlight and annotate titles.
  - Fixed-layout and Read-along eBooks are supported in the app.
  - No confusion around format choices.
- All loans and holds are on your **Shelf**.
- Consistent experience across platforms.

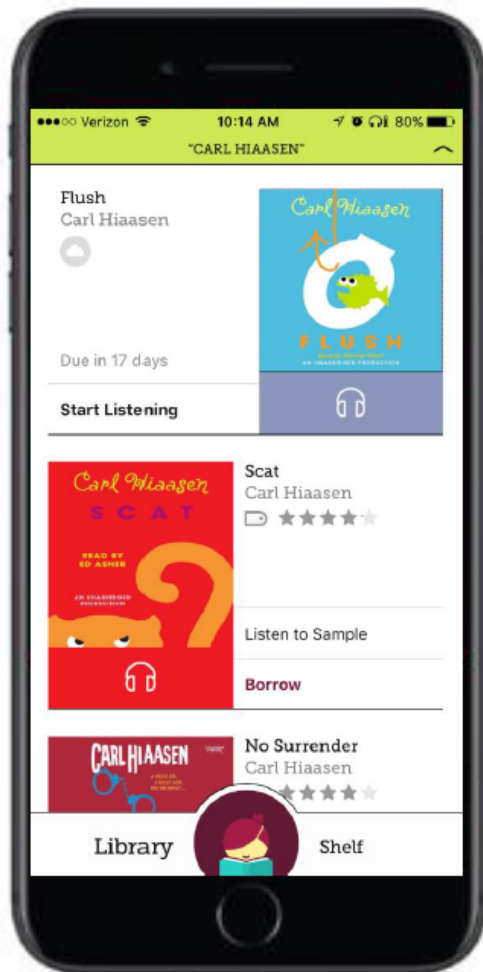

# Libby does even more

- Set **Preferences** for browsing your digital library.
- Manage **Download Settings** for titles.
  - By default, all titles are downloaded for offline use on wi-fi.
  - You can also choose to:
    - Manually download larger titles.
    - Download titles over cellular.
- Access multiple libraries
  - Save multiple library cards.
  - Shelf syncs across libraries.

# Libby does even more, cont.

- **Tags**
  - Tag titles you love, hate, or want to read.
  - Tag titles into custom lists, too.
  - Track them all from your Shelf.
- **Activity**
  - Alerts when titles are returned.
  - **Your timeline** shows all title borrowed, returned, and placed on hold.
- **Also available as...**
  - Easily link to the other format.
- **Reversed jackets**
  - Cover images flip to the right in search results when you borrow or place a hold.
